

**prevent a pest**  
expertise through experience

### **SAFETY POLICY DECLARATION**

We the Directors of Prevent a Pest are required to comply with all safety and health legislation that applies to this company. With this in mind we have carried out risk assessments of all our key operations and processes in all the workplaces we control. We have discussed these risk assessments with all relevant employees and worked with the safety committee in preparing this safety statement

This statement sets out the safety and health measures we are implementing to protect everyone who works here.

It is recognised, that this Safety Statement will not in itself prevent incidents and ill health at work. It is through the application and conformance to the procedures and codes of practice herein that Safety and Health shall be maintained.

The areas to be covered by this Safety Statement are set down in the Safety, Health and Welfare at Work Act 2005 and Safety, Health and Welfare at Work (General Application) Regulations 2007-2016 and other industry specific Regulations.

The Board of Prevent a Pest have endorsed this statement and gave me the responsibility to implement it. I am committed to ensuring that the safety and health measures set out in our safety statement are met.

As the Company nominated Safety and Health advisor, I shall give advice and information on how to comply with this safety statement but everyone, especially if you are in a management or supervisory position, is responsible for ensuring compliance where they work.

We expect all employees to co-operate with us so that we can achieve our target of avoiding accidents. Consultation on safety and health matters, between senior managers and all employees, will be carried out through the safety committee, which you have selected

You must play your part under the safety statement. Comply with all the safety and health rules for your area. Work safely and think of others as you do. Know and understand the risk assessments for your area. Report any safety and health problems to your supervisor. Know who your safety representative is and contact him or her with any safety and health enquiries you may have.
